

Metropolitan Airports Commission

TO: Planning, Development and Environment Committee

FROM: Ashley Vlasak, Senior Project Manager – Airport Development (612-467-0534)

SUBJECT: **Bids Received with Capital Improvement Program Adjustment - MAC Contracts
2026 Anoka County-Blaine Airport Runway 18-36 Pavement Reconstruction and
Electrical Vault Improvements**

DATE: July 1, 2026

FOR ACTION

Summary

The Anoka County-Blaine Airport (ANE) is part of the Metropolitan Airports Commission's (MAC) system of reliever airports designated by the Federal Aviation Administration (FAA) to reduce congestion at the Minneapolis-St. Paul International Airport and to provide improved general aviation facilities to the overall community. This project will provide for the reconstruction of north-south Runway 18-36.

This project is being implemented to assist in maintaining a safe and comfortable environment at the Anoka County-Blaine Airport while advancing the MAC's purpose to provide exceptional airport experiences so Minnesota thrives.

Fiscal Impact

☐ No Impact ☐ Operating Budget ☒ CIP ☐ Other

Staff is recommending that \$1,850,000.00 in Capital Improvement Program (CIP) funds from the 2026 Flying Cloud Airport (FCM) Tower Equipment for Airfield Lighting and Utilities project be reallocated to the 2026 ANE Runway 18-36 Pavement Reconstruction and Electrical Vault Improvements project. In addition, staff is recommending a project budget of \$6,200,000.00, which fits within the adjusted Capital Improvement Program (CIP).

Both projects are funded with federal grants and internally generated MAC funds in accordance with the CIP funding plan. Additional grant money related to the project increase will be requested from the FAA.

Action Requested

1. **Recommend that the full Commission decrease the CIP budget for the 2026 FCM Tower Equipment for Airfield Lighting and Utilities project to \$87,500.00;**
2. **Increase the CIP budget for the 2026 ANE Runway 18-36 Pavement Reconstruction and Electrical Vault Improvements project to \$7,400,000.00;**
3. **Accept the lowest responsible bid from Bituminous Roadways Inc. in the amount of \$5,944,528.50 and establish a project budget in the amount of \$6,200,000.00; and**
4. **Authorize the Executive Director/CEO or his designee to execute the necessary documents.**

Background

This runway reconstruction project has been coordinated with the FAA for timing and federal grants as part of a larger scheduling plan for runway work within the Reliever Airports system. It is critical to plan runway outages such that runway closures do not occur at multiple facilities at the same time.

Prior Related Actions

- (a) On December 15, 2025, the Commission approved the 2026-2032 CIP listing which included the work associated with 2026 Anoka County-Blaine Airport Runway 18-36 Pavement Reconstruction and Electrical Vault Improvements.

Applicable Legal Authority

- (a) Pursuant to Minnesota Statutes 471.345 and 473.652, sealed bids were solicited by public notice and award of construction contracts is authorized.

Analysis

This project will provide for the reconstruction of approximately 4,350-feet of runway length that is 100-feet wide. The pavement has reached the end of its useful life, is exhibiting large cracks and needs reconstruction including the subgrade to restore the surface to a smooth condition to improve its overall operating conditions.

Six bids were received and opened on the date indicated on the attached bid tabulation form (Attachment 1).

The pre-bid construction estimate for the project was \$4,209,330.00. Bituminous Roadways Inc. submitted the lowest bid of \$5,944,528.50. The difference between the lowest bid and the estimate may be due to substantially higher fuel and petroleum product costs when compared to previous years. Staff has reviewed the bids, concluded Bituminous Roadways Inc. is the lowest responsible bidder and recommends acceptance of its bid.

The Small Business (SB) goal is 16.0 percent. Bituminous Roadways Inc. has indicated its intent to meet the goal by subcontracting approximately \$1,047,652.00 or 17.6 percent of the project to certified SB companies.

Consistent with the Contract Change Management Procedures adopted by the Commission, staff is to recommend a project budget for each construction contract. Based upon review of past projects of this nature, staff is recommending a budget of \$6,200,000.00 to be established, which results in an approximate 4.3 percent contingency for project adjustments.

Bid Tabulation

Project Title: 2026 ANE Runway 18-36 Pavement Reconstruction
and Electrical Vault Improvements

MAC Contract No.: 110-1-058 and 110-1-063

Bids Due: 2:00 pm, Wednesday June 17, 2026

Estimate: \$4,209,330.00

Estimator: SEH

Consultant Team: SEH

<u>Contractor</u>	<u>Total</u>
Bituminous Roadways Inc.	\$5,944,528.50
Northwest Asphalt, Inc.	\$5,958,890.20
